

Electric Vehicle Time-Of-Use Meter Upgrades Acknowledgement

I hereby understand that upon receiving a rebate of **up to \$1,250** (in the form of a bill credit) from Wakefield Municipal Gas and Light (WMGLD) for electrical upgrades for separate meter installation, I will agree to remain an Electric Vehicle Meter Time-Of-Use Rate (EVM-TOU) customer for a period **no less than 12 months from the date that the rebate was processed**. I understand that if I choose to opt out of the EVM-TOU in advance of this period, I will be responsible to pay back a prorated portion of the bill credit received. The prorated portion will be calculated from the date the rebate was processed to the date of rate cancellation.
